Reminder: Driveway Permits Required in the Town of Shelby

Recently, the Town has had to issue stop work orders and/or pursue permits after the fact for driveways. If you are putting in a new driveway, or widening, reconstructing or resurfacing an existing driveway you will need a permit.

Work done without a permit will cost \$100.00 fee in addition to the cost of the permit.

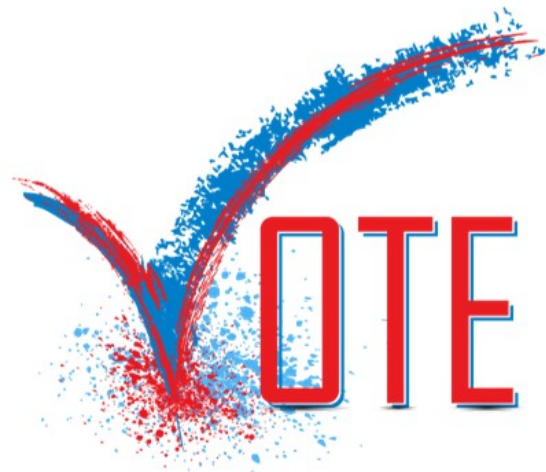

The Town has sent a notice to all contractors in La Crosse County, Vernon County, and several Minnesota contractors. Please make sure your contractor has obtained a permit before starting work.
